

SAINT XAVIER UNIVERSITY

2006 Biennial Review

Saint Xavier University conducted a Biennial Review between June and October 2006, in accordance with the U.S. Department of Education's Drug-Free Schools and Campuses Regulations.

This document outlines the conclusions of the Biennial Review. The following components are contained within:

1. AODP Program Vision Statement and SXU Mission Statement and Core Values
2. Program Achievements and Goals
3. Program Strengths and Limitations
4. Program Elements
5. Information and Awareness Campaigns
6. Procedures for Distributing the AOD Policy
7. Attachments

The Alcohol and Other Drug Prevention Program supports and advances the mission and core values of Saint Xavier University by providing information to students, staff, and faculty that promotes and respects healthy life-style choices and personal growth and development. For further information, please contact:

AODP PROGRAM VISION STATEMENT

Alcohol and Other Drug Prevention Program Vision Statement

The Alcohol and Other Drug Prevention Program is an institution-wide collaboration between Academic Affairs and Student Affairs at Saint Xavier University. Its vision shall be to educate the Saint Xavier University community about the impact of alcohol and other drugs use as it relates to academic and personal success.

In order to achieve its vision, the Alcohol and Other Drug Prevention Program has identified the following goals.

The Alcohol and Other Drug Prevention Program will:

- Serve as a link for students to University support services.
- Provide information to students, staff, and faculty that fosters healthy life style choices.
- Design and implement programs in collaboration with other University departments.
- Recommend changes to University policy regarding alcohol and other drugs.
- Assess student attitudes, beliefs, and values regarding the use of alcohol and other drugs.
- Measure the outcome effectiveness of prevention programs and activities.
- Create an atmosphere in which alcohol use is not the central focus of social events.

Reviewed and approved by the Alcohol and Other Drug Prevention Program Steering Committee, October 11, 2006.

SXU MISSION STATEMENT AND CORE VALUES

Saint Xavier University Mission Statement

Saint Xavier University, a Catholic institution inspired by the heritage of the Sisters of Mercy, educates men and women to search for truth, to think critically, to communicate effectively, and to serve wisely and compassionately in support of human dignity and the common good.

Approved by the Saint Xavier University Board of Trustees, October 12, 2005 and by the Members of the Corporation, the Sisters of Mercy, on October 20, 2005.

Saint Xavier University Core Values

The Saint Xavier University Community commits itself to practicing eight core values as it engages in a search for truth and knowledge, both for personal enhancement and to understand and improve our world. These eight core values are Respect, Excellence, Compassion, Service, Hospitality, Integrity, Diversity, and Learning for Life.

PROGRAM ACHIEVEMENTS AND GOALS

Program Achievements 2004-2006

- Expanded events offered during National Alcohol Awareness Month in April 2005 and 2006 by adding annual guest speakers to the other offerings of Alcohol Screening Day, Thursday Night Alternatives, and many other special events. Participation in these events averaged a 50% increase when compared to the events during the 2002-2004 Biennial Review. This extensive University-wide programming was open to all students and developed with particular attention to reaching resident students.
- Recruited students representatives to serve on the steering committee.
- Established an ongoing partnership with the Nursing and Psychology programs where seniors collaborated with the steering committee to plan, market, and implement alcohol educational events on campus. This work was directly connected to the classes' learning objectives.
- Implemented regular student evaluations of AODP events to track and compare effectiveness of future events.
- Launched an AODP-specific website as part of SXU's website. This site is dedicated to raising the AODP program's profile and advertising its events.
- Provided education for students found in violation of the AOD policy via the Alcohol and Other Drug Education Seminar on Saturday mornings.
- Offered university community members referrals for substance use disorder treatment.
- Administered the CORE survey to a representative random sample of undergraduate population in which we received a 14% response rate. This sample was an expansion of the 2003 survey administered only to residential students.
- Established AODP program presence at FOCUS Road to Success, thus offering all incoming freshmen the opportunity to learn more about the program at the beginning of their college career.
- Distributed the AODP Vision Statement to new and returning students through the SXU Seminar and FOCUS Road to Success programs.
- Increased dissemination of information to the SXU community in the form of posters, pamphlets, and educational presentations since the 2002-2004 Biennial Review.
- Expanded the network of university departments collaborating with AODP activities to include the Health Center and Student Success Program.

Program Goals 2006-2008

- Educate the university community about the physiological, social, and environmental consequences of alcohol and drug use.
- Review and improve campus policies and practices as needed.

- Ensure that alcohol and drug policies are consistently enforced campus-wide.
- Gather information about student attitudes, beliefs, and behaviors regarding alcohol and drug use, abuse, and dependency.
- Facilitate referrals for students seeking treatment for substance use disorders in collaboration with Counseling and Career Services.
- Explore possibilities to initiate a community wide designated driver program whereby Saint Xavier University would partner with local pubs and restaurants to offer incentives for students who participate in the program.
- Include the AOD Vision Statement in staff handbook.
- Continue to include student participation on AODP Steering Committee.

PROGRAM STRENGTHS AND LIMITATIONS

The 2006 Biennial Review has identified several strengths of the Alcohol and Other Drug Prevention Program at Saint Xavier University.

Strengths

- The program makes use of empirical research and “best practices” in the development of goals and services provided
- Institutional commitment has been continued through the maintenance of a stable AODP budget
- Steering Committee committed to supporting the AODP Vision Statement.
- Steering Committee commitment and academic departmental support of including students in developing AODP events.
- The CORE survey was administered to a representative, random sample of the undergraduate student population.

Limitations

- Need to increase length of time that student members serve on the steering committee.
- The CORE survey’s response rate experienced a decrease compared to the previous administration.

PROGRAM ELEMENTS

In July 2001, Saint Xavier University appointed an AODP Program Coordinator, whose primary responsibilities include coordinating campus-wide AODP efforts. In the time that has passed since its inception, the AODP Program has grown in a variety of ways. The quality and quantity of AODP Programs on campus has increased, attendance at AODP Programs has risen, the Alcohol

101 Plus CD-Rom program has been presented to freshmen in all sections of the mandatory SXU Seminar course in the Fall semesters of 2003 and 2004, an Alcohol Education Seminar was created for repeated offenders of the University alcohol policy, and an online alcohol assessment tool was added to the Saint Xavier website. In September 2003 an AODP Program steering committee was formed and composed of faculty and staff from various departments and a mission statement was created for the AODP Program. In addition, the committee serves to examine and improve campus alcohol policies and practices. The contributions of various university departments to AODP efforts are described in the following sections.

INFORMATION AND AWARENESS CAMPAIGNS

Alcohol 101 Plus

Alcohol 101 Plus is an interactive CD-Rom designed to increase college students' awareness about issues surrounding alcohol use, and to help students make informed decisions about drinking. Alcohol 101 Plus is also available for students' individual use in the Counseling and Career Services office. During the 2004-2005 academic year, Alcohol 101 Plus was presented in a group format to over 400 new Saint Xavier students in all the sections of the SXU Seminar (first-year experience) course. During the 2005-2006 academic year, Alcohol 101 Plus was presented at an open workshop marketed to SSP students as well as the general student population.

National Collegiate Alcohol Awareness Week and National Alcohol Awareness Month

Saint Xavier University observes National Collegiate Alcohol Awareness Week (NCAAW) in October and National Alcohol Awareness Month (NAAM) in April. Almost 600 people participated in the programming efforts that occurred during NCAAW and NAAM. NAAM events alone experienced a 50% increase in participants. Programs that took place in the 2004-2005 and 2005-2006 academic years for the two aforementioned awareness campaigns were:

1. **Information tables.** Students are free to take handouts, brochures, and pamphlets regarding alcohol, drugs, and related issues. These tables are typically set up in high traffic areas, such as the Dining Hall.
2. **Soberfest Events** (*completed in 2005 and 2006*). This is a large scale party designed to teach students that alcohol is not necessary to have a good time. Soberfest featured a DJ, mocktails, information table, E-Chug (online alcohol assessment tool), and fatal vision goggles. If students participated in the educational portion of the program they were allowed to enter their name in a raffle where they had a chance to win an iPod and various gift certificates. Approximately 230 people participated in this event over the two years.
3. **Thursday Night Alternatives (TNA).** TNA programs are designed to occur around the same time that students would normally be going out for the evening, thus providing students with an alternative to the typical Thursday night bar scene. Eight TNA programs were conducted during April 2005 and 2006. Program activities included a poker/pool tournament, open gym in the Shannon Center, alcohol remembrance vigil in Mary's Circle, a late night cookout, bingo, games night, and movie nights. In all, approximately 270 people participated in TNA programming.
4. **Reflection Tables.** During Fall 2004 and Spring 2005, students were encouraged to commemorate friends and loved ones who had died or suffered from alcohol or alcohol related causes. The reflection table was located in a high traffic area to maximize its impact on passing students. In April 2005, students were encouraged to write the name of a loved

on a small tea light candle. The candles were used during the TNA prayer vigil in Mary's Circle commemorating the victims of alcohol abuse and dependence.

5. **Bulletin Boards.** Created by Nursing and Psychology students, bulletin boards were posted in the Residence Halls, main campus hallways, Shannon Athletic Center, and Health Center that pertained to alcohol and alcohol related issues. Topics of these bulletin boards included physiological effects of alcohol, binge drinking, and fetal alcohol syndrome.
6. **Fundraising.** During Spring 2005, the Student Nurses Association and Student Success Program created a new awareness initiative through bake sales and other fundraising for the local chapter of MADD.

Alcohol Screening Day

Saint Xavier University sponsored its fourth and fifth annual Alcohol Screening Days in April 2005 and 2006. This event included an educational lecture, a video presentation, and the opportunity to complete a written questionnaire and meet individually with a counselor. Participants receive educational materials and referral information. Several Nursing and Psychology students assisted in organizing the events, and 89 students attended these events or completed the on-line version of the screening.

Alcohol and Other Drug Education Seminar

Students found in violation of the University's AOD policy were required to attend an Alcohol and Other Drug Education Seminar conducted by the Coordinator of the AODP Program. The Dean of Students, Residence Life officials, and other university departments refer students to Saturday morning seminars. Topics covered include: state and national norms, physiological effects, legal and medical consequences, and social and environmental effects of alcohol and other drug use. Students are required to examine their own AOD-related behaviors, and discuss alternatives to high-risk drinking and drug use.

Department of Campus Life

The Department of Campus Life provides a variety of alcohol-free programs throughout the academic year. These programs include social events, such as Medieval Times outing, Super Bowl Party, Multicultural Night, Ski Trip, Service Day, and more. In 2004, First Year Programs, as part of the SXU Seminar class, sponsored the following alcohol awareness events: in 2004 David Hellstrom presented "The Real Buzz: The Truth and Lies About Campus Alcohol" and in 2005 Pillars Community Services offered a consequences of drugs and alcohol presentation. Approximately 400 students attended each presentation.

Counseling and Career Services

During the 2004-2005 and 2005-2006 academic years, Counseling and Career Services supported and collaborated with AODP in a variety of ways. During Fall 2004, counseling staff collaborated with other departments to present Alcohol 101 Plus to approximately 400 students in the First Year Experience class. CCS also co-hosted National Collegiate Alcohol Awareness Week events, which included information tables, reflection tables, and a Thursday Night Alternative. Finally, in Spring 2005 and 2006, counseling staff collaborated with AODP and the Nursing and Psychology departments to hold the annual Alcohol Screening Days, coordinate student involvement in other outreach programs, and dedicated its bulletin boards to the topic. In addition to the activities reported by semester, counseling staff maintained a referral list for AOD treatment and continued to screen clients using the Personality Assessment Inventory (PAI), which includes scales for alcohol and drug use along with other clinical conditions. The office also supported AODP by providing administrative support whenever possible.

Health Center

The Saint Xavier University Health Center offered educational support for smoking cessation. In November 2005, the Health Center staff organized and sponsored the “Butt Out” Campaign, which encouraged students, faculty and staff to quit smoking. Informational tables were set up in the dining hall and passive information was made available on the website. Also, a support group was established to better distribute information about cessation and offer resources available in the immediate community. The Health Center website also directs viewers to web links about alcoholism, drug use and smoking. The Health Center April newsletter highlighted “How to Notice a Drinking/Drug Problem in Yourself or a Friend” in support of Alcohol Awareness Month.

Department of Public Safety

The following are expressly prohibited activities:

1. Possession, consumption, or furnishing of alcoholic beverages on University owned or controlled property, or furnishing alcoholic beverages to others while on campus.
2. Possession, consumption, manufacturing, or furnishing of illegal drugs, in either the refined or crude form.
3. Possession and use of any prescription drug for which legitimate possession and use cannot be verified from a medical doctor.

Based upon the discretion of University officials from Residence Life or the Department of Public Safety, consequences for minors in possession of alcohol, or other violations of the law, may range from referral to the Dean of Students for campus judicial sanctioning or physical arrest by University or Chicago Police. Any violations of the Controlled Substance Act will result in criminal prosecution.

Residence Life

The Residence Life policy on alcohol is as follows and can be found in the Residence Life Student Handbook:

The use, sale and possession of alcoholic beverages is prohibited anywhere in the residence halls and university premises with the exception of Gilhooley’s Saloon. Alcoholic beverage containers (bottles, cans, etc.) are also prohibited whether or not they contain any beverage. This prohibition applies to all parts of the campus. Possession of a beer keg will result in an automatic suspension from the residence halls.

Subsequent violations of the alcohol policy may result in, but is not limited to, attendance at an *Alcohol and Other Drug Education Seminar* on designated Saturday mornings throughout the semester.

Students who violate this policy are subject to judicial sanctions. These sanctions include but are not limited to: parental notification if under age, residence hall probation, residence hall suspension, attendance at the *Alcohol and Other Drug Education Seminar* organized by Alcohol and Other Drug Prevention Program Coordinator, completion of the *Alcohol 101 Plus* interactive CD-ROM, community service, research papers on topics such binge drinking and secondary effects of alcohol consumption, attendance at co-curricular workshops, and educational bulletin boards.

The Department of Residence Life offers programming activities such as “Mocktail Hours” and some general weekend programming to offer students alternate social choices that include BBQ

dinners, Sweetheart Auctions, and competition based activities. During Alcohol Awareness Month bulletin boards throughout all buildings are dedicated to alcohol education in many different eye catching formats.

Resident Assistants are trained at the beginning of each academic year on ways to handle incidents involving alcohol. This is accomplished through the RA Training sessions in which alcohol and drugs are discussed in relation to the Residence Halls.

Student Success Program

Throughout 2005 and 2006, the Student Success Program has collaborated with Counseling and Career Services to organize events for National Collegiate Alcohol Awareness Week and Alcohol Awareness Month. In April 2006, during Alcohol Awareness Month, the Student Success Program organized and staffed an alcohol awareness information table in the Saint Xavier Diner. The table provided statistics, brochures, and other informational materials, screened a video regarding real life experiences with alcohol and other drugs, distributed red Alcohol Awareness ribbons, and raised money for MADD (Mothers Against Drunk Drivers). Coinciding with Alcohol Awareness Week in 2005, the Student Success Program offered an “Alcohol 101” workshop specifically for program participants. Additionally, the Student Success Program Counselor participates with other counselors in the University’s Alcohol Screening Day and regularly conducts screening for alcohol and other drug use, using the Personality Assessment Inventory (PAI), with all clients seeking counseling.

Academic Affairs

Several departments in the division of Academic Affairs offer courses that incorporate alcohol and other drug education. The following list is a sample of these course offerings.

- Academic Support 100 SXU Seminar
- Anthropology 232 Adolescence Cross-culturally
- Anthropology 235 Sex, Culture and Society
- Anthropology 245 Third World in a Global Context
- Biology 173 AIDS: A Biological Perspective
- Biology 200 Human Biology
- Biology 207 Nutrition
- Criminal Justice 210 Criminal Law
- Criminal Justice 338 Drug Abuse
- Education 325 Health and Nutrition Across the Lifespan
- Physical Education 112 Health and Fitness
- Physical Education 116 Contemporary Topics in Health
- Nursing 344 Nursing Care of Adults
- Nursing 357 Community and Mental Health Nursing
- Psychology 204 Introduction to the Study of Psychopathology
- Psychology 306 Social Psychology

Psychology 311 Physiological Psychology
Psychology 341 Health Psychology
Sociology 209 Family Conflict
Sociology 210 Sociology and the Family
Sociology 215 Medical Sociology
Sociology 221 Social Problems
Sociology 283 Gangs and Society
Sociology 324 Substance Abuse Workshop
As of 07/05/06

PROCEDURES FOR DISTRIBUTING THE AOD POLICY

The University's alcohol and other drug policy is made available to students in the Student Handbook. The Student Handbook is available online, and is distributed to all students free of charge through orientation activities and the residence halls. The Student Handbook is also available throughout the year in the Student Affairs office.

Upon employment, all staff and faculty receive an orientation with a staff member from the Employee Services department. Faculty and staff receive a manual and an explanation of standards of conduct.

Alcohol and Other Drug Policy – Students

Alcohol Policy

Saint Xavier University students are expected to abide by Illinois State laws concerning the drinking age. When some members and/or guests of a student group, club, or organization are under the legal drinking age at an off-campus event, the members of the organization and their guests are responsible for conducting themselves in accordance with University Policy and with state laws.

With the exception of Gilhooley's Saloon, students and/or their guests may not possess, sell, or consume alcoholic beverages on University property. Students may not purchase alcoholic beverages with University approved student fees or with any other student funds that are collected and administered by a student organization or club. Violation of this policy may result in disciplinary action.

On rare occasions, students and/or their guests, who are 21 years of age or older, may apply for permission to possess or consume alcoholic beverages at an approved University function. Those who so wish to obtain such permission must consult with the Dean of Students no later than 10 days prior to the date of the event. Permission will be granted only when a series of stringent precautionary and control measures have been arranged so that those attendees who are under 21 years of age will not be served alcoholic beverages. At no time may students and/or their guests sell or effect the commercial delivery of alcoholic beverages on University property.

At any on-campus or off-campus events at which students and/or guests under 21 years of age are present, and where alcoholic beverages are served or provided by an official Saint Xavier University department, organization or club as part of the event, prior University approval must be obtained. Saint Xavier University assumes no responsibility for any liability incurred as the result of a department's, club's or organization's violation of these rules or of any State or City law governing the use and consumption of alcoholic beverages.

Drug Policy

Members of the University community are subject to federal, state, and local laws. Illinois law prohibits the possession or use of marijuana, narcotics, and hallucinogenic drugs, either in the refined or crude form, except under the direction of a licensed physician or dentist. The possession, use, distribution, and/or sale of marijuana, narcotics, and hallucinogenic drugs are prohibited. Violations of these regulations may result in disciplinary action, ranging from a written statement of an official warning up to legal civil actions and expulsion from the University. Individuals convicted of unlawfully possessing or distributing illicit drugs and alcohol may face misdemeanor or felony charges, which are punishable by sanctions up to and including imprisonment.

Counseling and Treatment for Drug and Alcohol Problems

1. Drugs and alcohol are dangerous substances, which can lead to serious physical problems with all major organs. Even a single abuse of these substances can endanger lives and cause irreparable harm to self and others.
2. Students who may have been, or are using drugs, and wish counseling, may request counseling on campus or referral to outside agencies. If a student enters into a

counseling relationship, it will be regarded as privileged information and be treated in a confidential manner.

An extensive list of drug and alcohol counseling treatment rehabilitation programs is available to students through the Vice President for Enrollment and Student Services Office, or by calling the Illinois Department of Alcoholism and Substance Abuse at (312) 917-3840.

*The above information is provided in cooperation with the United States Government's **Drug Free Schools and Workplace Act (1989)**.*

Drug Free Schools and Workplace Act – Staff and Faculty

In full cooperation with the federal government, it is Saint Xavier University's policy to have a drug-free workplace. The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance, mind-altering chemical, depressant, stimulant, or alcohol is strictly prohibited "on premises." "On premises" includes any work site, vehicle, or office which is owned, serviced or used by the University and includes employee-owned vehicles on the property of the University or of any client of the University. Violation of this policy will ordinarily result in immediate discharge.

As part of our policy, we are maintaining a drug-free awareness program to inform employees about: a) our policy of maintaining a drug-free workplace; b) the dangers of drug abuse in the workplace; c) drug counseling, rehabilitation and similar programs which are available in the community; and d) the fact an employee may not lose his/her job, but may be sent to prison, for drug abuse violations.

For compliance with the federal law and as a condition of continued employment with the University, each employee must: a) comply with this policy of a drug-free workplace and b) notify the University in writing of any criminal drug statute conviction for a violation occurring in a workplace no later than five calendar days after such conviction. Within 10 days after receiving notice that an employee has been convicted of violating a criminal drug statute, the University is required to report that fact to any government agency with which we have a contract.

Standards of Conduct – Faculty and Staff

Whenever people gather together to achieve goals, some work rules are needed to help everyone work together efficiently, effectively and harmoniously. By accepting employment with the University, staff have a responsibility to Saint Xavier and to fellow staff members to adhere to certain rules of behavior and conduct. The purpose of these rules is not to restrict staff members' rights, but rather to be certain that each staff member understands what conduct is expected and necessary. When each person is aware that he or she can fully depend upon fellow workers to follow the work rules, then our institution will be a better place to work for everyone.

Staff members should read these work rules carefully. While not every situation can be covered in a Handbook such as this, here are some examples of conduct Saint Xavier University considers unacceptable:

1. Deliberate falsification of any records.
2. Habitual absence or tardiness.
3. Absence on a scheduled workday without notification.
4. Insubordination or failure to follow instructions.
5. Threatening, intimidating, coercing, physically abusing, or sexually harassing fellow employees.
6. Interfering with normal work routine while on the job or on scheduled break.
7. Theft.
8. Coming to work under the influence of alcohol or illegal drugs or narcotics, or bringing such substances on to University premises.
9. Deliberate disregard of safety rules.
10. Disregard for appropriate attire.
11. Gross incompetence.
12. Possession of firearms.

The foregoing enumeration is by way of illustration and should not be deemed to alter the employee's at-will status.

SAINT XAVIER UNIVERSITY CODE OF CONDUCT FOR STUDENT ATHLETES

The Saint Xavier University Athletic Department expects each student-athlete to conduct himself/herself in a manner that reflects a positive image of the values and traditions associated with the University.

As a member of the Saint Xavier University Athletic Program, you become a representative not only of your team, but the University. You have the freedom to manage your own life style. It is essential that this freedom be handled in a responsible manner so as not to jeopardize the opportunity to obtain maximum results from your college experience. It is important that your personal conduct demonstrates good moral and ethical judgment. You are expected to conduct yourself both on and off-campus in a manner that brings credit to the University and your team. Be aware of the image you are projecting to those individuals with whom you come in contact.

Success in sports requires extensive time and energy. As a student-athlete, it is imperative that you budget your time wisely and establish sound objectives and priorities. Experienced student-athletes have found that good organizational skills are necessary to attend classes, practices, meetings, prepare out-of-class assignments and still have time for themselves. Create an effective schedule and stick with it. It is much wiser to make a strong start and keep current on assignments than to spend your time and energy always trying to catch up.

Saint Xavier University student-athletes are expected to remain in good academic standing with the University. Each student-athlete must adhere to the rules and regulations of his/her individual sport. Student-athletes are expected to remain in good standing with all campus officials, including security, residence life staff, Dean of Students, etc.

When you travel on the road as a member of a Saint Xavier University Athletic team you must represent the Athletic Department and the University in a professional manner. You are asked to conduct yourself according to the rules and regulations established by the coach of your particular sport. Prior to departure, you are responsible for informing your instructors that you will be absent. It is your responsibility to make arrangements to make up missed course work when you are traveling with the team.

In this book you will see a pledge sheet for the NAIA “Champions of Character” initiative. We at Saint Xavier University have always stressed good sportsmanship. We are proud to be part of this program.
